

Lab Project Questions:

1. Write a program to implement caesar cipher .
2. WAP to implement shift cipher
3. WAP to implement Rail Fence Cipher
4. WAP to implement hill cipher.
5. WAP to implement vernam cipher.
6. WAP to implement OTP cipher.
7. Write a program to implement playfair cipher...
8. RSA implementation
9. WAP to find primitive root of a prime no
10. WAP to implement Diffie Hellman algorithm.
11. WAP to implement Euclidean algorithm.
12. WAP to implement Extended Euclidean algorithm.
